PhD. JESÚS ALBERTO MERCADO CORDOVA.
Researcher. Environmental and Energy Economics, Innovation Management
+33 06 76 500 246 / MERCADO.CORDOVA86@GMAIL.COM /
Palaiseau, France

PROFESSIONAL EXPERIENCE

2025-Present: Lecturer & Researcher. Université Evry Paris-Saclay , *Evry (France)*.
Undergraduate school

- Microeconomics
- Econometrics
- Statistics.

Research projects:

- Induced technological change of energy technologies of ETS phase 1 and 2 in the EU
- Global value chains analysis of trade policy using added value approach in CGE models

2023-2025: Postdoctoral Researcher. Institut Mines-Télécom Business School (IMT-BS), *Evry (France)*.
Marie Curie Post-Doctoral research fellowship recipient.
Research projects:

- EU's feasibility of biofuel targets using spatially explicit optimization analysis
- Biofuel role in net-zero pathways by 2050 and land-use change implications
- Global value chains analysis of trade policy using added value approach in CGE models

Achievements:

- 1 publications in high impact peer reviewed journals.
- 3 International Conferences presentations

2022-2025: Consultant. Center for Tropical Agricultural Research and Development. *(Remote)*.
Duties:

- Fossil fuel subsidies phase out impacts in Latin America
- Economic and financial analysis of mitigation and adaptation projects
- Training program for Climate Finance Adaptation and Mitigation Projects in Central America

2018-2023: Ph.D. Researcher. Seoul National University. *Seoul (Republic of Korea)*
Korean Government Scholarship Program recipient.
Research projects:

- Environmental economics Land-Use Change (LUC) analysis and carbon sequestration
- Trade analysis. Non-trade Measures and Ad valorem equivalents
- Analysis of renewable energy policies using CGE frameworks
- Economic growth and technological innovation
- Climate governance, carbon pricing, carbon markets and Emission Trading Schemes.

Achievements:

- 1 publication in a high impact peer reviewed journal.
- 1 International Conferences presentations

2019-2019: Researcher: Global Green Growth Institute. *Seoul (Republic of Korea)*.
Research projects:
- Quantitative Research on Energy Storage and Smart grids in Latin America
- Input-Output analysis of employment impacts of renewable energy projects in South East Asia;

2014- 2017: Analyst Executive. Latin America Development Bank. *Caracas (Venezuela)*.
Duties in Energy Department:
- Managed the full lifecycle of infrastructure projects, focusing on solar PV, wind, biomass, and hydro generation.
- Participated in financial committees for project approvals, including sovereign loans, guarantees, project finance, and equity investments.
- Conducted economic and environmental impact analyses for energy projects across Latin America.

Achievements:
- Managed up to six different infrastructure projects;
- Initiated and managed five different projects worth up to 1.000.000 USD in investment projects and technical cooperation;
- Published five research reports;
- Implemented more than fifteen public tenders;

2012-2014: Researcher. Institute of Applied Economic Research. *Brasilia(Brazil)*.
Agency of the Federal Government of Brazil. Research grant.
Duties:
- Research the economic impact of trade integration policy (FTA) schemes of MERCOSUR with other countries and blocks;
- Sectorial Public policy planning, budgeting and time management;
- Support institutional relations between different public agencies for planning activities and funding projects.

Achievements:
- Initiated two research projects on regional integration;
- Published one academic papers;
- Supported external relations between IPEA and Venezuela, Dominican Republic, Guyana and Suriname.

2012-2013: Lecturer. Alejandro Humboldt University. *Caracas (Venezuela)*.
Undergraduate school
- International Economics.

2009-2009: Internship. United Nations. (UNESCO-IESALC). *Caracas (Venezuela)*

2009-2010: Junior Researcher. Latin American Studies Center Romulo Gallegos. *Caracas(Venezuela)*

EDUCATION

2024: Ph.D. Technology Management Economics and Policy. Seoul National University. *Seoul (Republic of Korea)*.

2015: Diploma. Project Management. Monterrey Institute of Technology and Higher Education. *(Remote)*.

2012: Master. International Political Economy. Federal University of Rio de Janeiro. *Rio de Janeiro (Brazil)*

2009: Bachelors. International Economics. Universidad Central de Venezuela. *Caracas (Venezuela)*.

EXPERTISE & SKILLS

Theoretical Basis: Environmental and energy economics, sustainable development, program evaluation, economic growth and development, innovation management, financial analysis and international relations.
Quantitative Methodology: Statistical analysis, econometrics, integrated assessment models, optimization models, Computable General Eq. Models, decision making analysis, network analysis, Input-Output analysis, productivity and efficiency analysis (SFA, DEA).
Languages: English, French, Spanish and Portuguese, . Working knowledge of Korean
Software: Python, R, GAMS, QGIS, Matlab, Netlogo, STATA

CERTIFICATIONS

SDG Academy (SDSN) Measuring Sustainable Development. 2021
DUKE University Electric Industry Operations and Market. 2021
UN Climate Change Learning Partnership Sustainable Finance. 2020
PROJECT MANAGEMENT INSTITUTE (PMI) Project Management Professional (PMP). 2015
TOPIK Proficiency in Korean Inter
mediate Level. 2018
IELTS Proficiency in English: C1. 2021
CELPE- BRAS Proficiency in Portuguese: INTERMEDIATE -ADVANCED LEVEL. 2011
